

Economics (Marketing) – Engineering (Electrical)

Internship Openings

Are you?

- Last year University student or recent graduate?
- Willing to test your skills in a growing multinational with operations in Asturias, Asia and Latin America?
- Interested in strategic marketing, business development or operations?
- Ambitious, driven and committed to your career growth?
- Comfortable writing and talking in english

We seek, for immediate incorporation or full or part time basis, support to marketing and business development respectively.

- Economist / Business Administration / Business degree, with focus on Marketing
- Industrial or Mining engineer with focus on electricity/electronics

Experience is not required but relevant references will be valued. Computing, Language skills and a vocation for global business are a must.

Temper Energy International is opening its internship program in Oct 2014 in its offices of Granda (Siero). If the above describes you, email us immediately your resume and a letter of motivation (both in English) to rrhh@grupotemper.com. We will be glad to hear from you
